April 2nd, 2025

Deputy James Geoghegan,
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

Dail Question No: 373

To ask the Minister for Transport to identify specific examples where artificial intelligence has been adapted for the operation of his Department and each body under the aegis of his Department; and if he will make a statement on the matter.

Dear Deputy Geoghegan,

Thank you for your query. daa permits the use of Generative Artificial Intelligence (AI), subject to the guidance outlined in our Information Security Policy. This highlights that any users of generative AI platforms must ensure that they independently verify the accuracy of outputs generated and that outputs should not be relied upon for decision-making, providing advice, or used without consulting with appropriate subject matter experts. Currently, the only Generative AI tool being used by daa is Microsoft Copilot, which is undergoing a trial with a limited user group. The purpose of this trial is to assess Copilot's applicability and impact on office-based tasks, with a view to rolling this out to further users in the future.

Kind regards,

A handwritten signature in blue ink that reads 'Rebecca Troy'.

Rebecca Troy,
